Besta Parasol

saxun[°]
Your world, our universe.

Saxun contributes to people's well-being and happiness with solutions that improve the spaces in their lives. We love space and the scope it provides us for feeling good. That's why we develop products that are functional, versatile and comfortable, so that you can make the most of your space in a variety of ways.

Create enchanting exteriors

We know how important it is to protect your most valued spaces from the sun, with elegance and functionality, which is why we have designed a cutting-edge solution that will allow you to raise your outdoor spaces to a new level.

The Besta parasol provides that extra touch of exclusivity and design that your outdoor spaces deserve, where you can enjoy unique experiences while protected from the sun.

An ideal design to adorn homes and the outsides of hotels, restaurants and cafés.

Protect, decorate and create dream exteriors!

Flexible protection and with great potential

Besta is a sunshade specially developed to offer the most effective sun protection.

A system that works by means of a telescopic mechanism for easy closure due to the operation of a spindle through a removable handle.

Thanks to its different geometries and sizes, it will adapt perfectly to all types of gardens and terraces, both in the residential sector and in the hotel and restaurant sectors.

Effective sun protection against the sun's rays

Different sizes and geometries

Wide range of fabrics

Built-in LED lighting

BIM product, CAM available at saxun.com

Different fastening possibilities

Parasol Besta

The Besta parasol is designed to offer maximum functionality and great versatility, thanks to the various models.

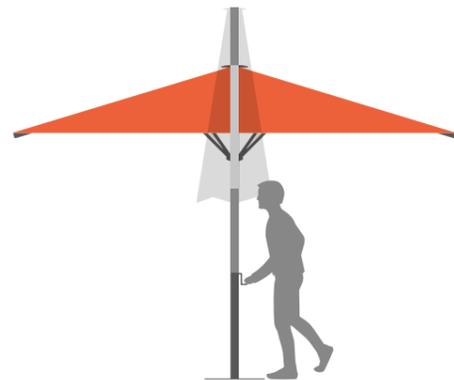

Its robust yet lightweight construction offers maximum durability and stability.

A solution that is easy to install and simple to use.

Technical and aesthetic performance

The joining profiles, made with screws, nuts and nylon bushings, prevent friction and favour the avant-garde aesthetics of the system.

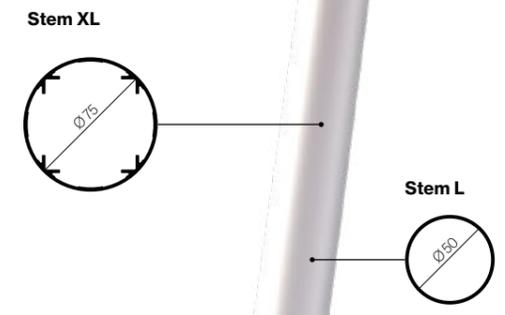

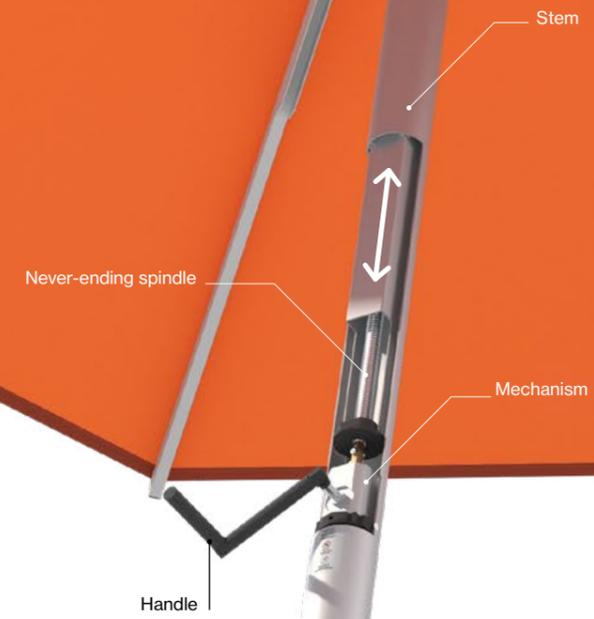

Easy to use

This system is operated with a telescopic mechanism integrated into the pole.

A roman blind handle is used to operate the mechanism, making the telescopic system slide along the spindle without the user having to worry about removing nearby objects beforehand.

A system that guarantees durability and safety.

Maximum durability

The parasol rods incorporate H-profiles which are attached to the underside of the parasol to increase and ensure stability in all conditions.

For better grip, the fabric is generated in one piece.

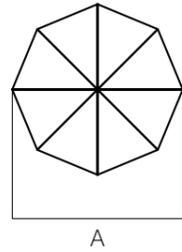

Models

Our parasol is available in different shapes and sizes.

Choose the one that best suits your space.

Round

L-shaped models

	A	C	D	E	F	G	Weight
RL1	2500	950	2,200	2,630	3,140	1,820	25 kg
RL2	3,000	950	2,200	2,700	3,300	1,720	30 kg

Measurements in mm.

XL models

	A	C	D	E	F	G	Weight
RXL1	3,500	1,050	2,300	2,860	3,460	1,645	29 kg
RXL2	4,000	1,050	2,300	2,940	3,605	1,528	33 kg
RXL3	4,500	1,050	2,300	3,050	3,750	1,410	37 kg
RXL4	5,000	1,050	2,300	3,090	3,895	1,290	40 kg

Measurements in mm.

- A** Length
- B** Width
- C** Handle height
- D** Clearance height
- E** Total open height
- F** Total closed height
- G** Clearance height closed

Square

L-shaped models

	A	C	D	E	F	G	Weight
CL1	2500	950	2,200	2,630	3,140	1,320	31 kg
CL2	3,000	950	2,200	2,700	3,300	1,100	33 kg

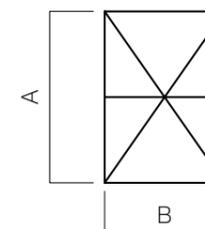

Measurements in mm.

XL models

	A	C	D	E	F	G	Weight
CXL1	3,500	1,050	2,300	2,860	3,460	950	33 kg
CXL2	4,000	1,050	2,300	2,940	3,600	728	33 kg

RE2	3,500	3,000	1,050	2,300	2,860	3,460	1,115	28 kg
RE3	4,000	3,000	1,050	2,300	2,940	3,615	1,060	30 kg
RE4	4,000	3,500	1,050	2,300	2,940	3,610	900	32 kg

Measurements in mm.

Illuminating those most special moments

The possibility of incorporating 4 lines of 12 V LED light in the arms of the system allows users to enjoy the product in night-time environments, illuminating the space and giving it unique personality.

Its rechargeable battery power helps give the product an autonomy that makes it easy to install anywhere.

A companion system of hoteliers

Thanks to the possibilities of modulation and customisation that the system allows, the entrepreneur will be able to satisfy the aesthetic needs of his/her business.

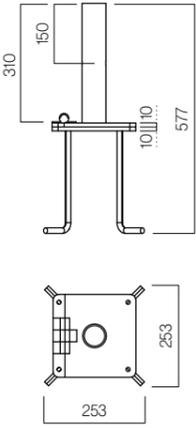

The ability to cast large shadows, as well as the high quality of the fabrics, make Besta a high-performance solution for terraces where users expect to spend a lot of time.

Types of fastening

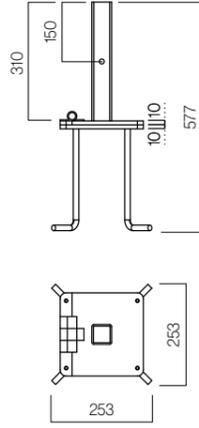

Built-in bases

Colours that sparkle in the sun

Besta allows the customer to make attractive combinations to obtain a fully customised design.

Regarding the canvas, you can choose from a wide range of colours from our catalogue, between acrylic, PVC and Top-FR (polyester) tarpaulins.

All these colours can be combined with all the colours of the RAL chart that we provide for the structure of the sunshade, allowing textured and anodised finishes.

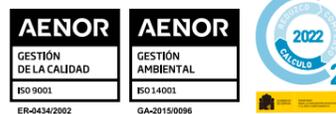

Saxun offers the widest range of enclosures, sun protection and decorative treatments on the market to improve the spaces in your life, accommodating your needs and style, so that you can feel secure and at ease.
