- Attention:**
 - For awnings where there are discrepancies, indicate diagonals.
 - Awnings with supports come out from an existing wall.
 - The awnings will be manufactured with double sticks.
- *If no awning motorisation is indicated, the movement will be manually provided using a central pulley.
 - *If no exterior crossbeam dimensions are given, they will be manufactured inside the structure.
 - *If motorisation and exterior awning crossbeam size are not indicated, it will be manufactured with crossbeams on the outside of the structure.
